

Appendix: Grading Rubric

(Please remove this page in your final submission)

These is the grading rubric that we will use to evaluate your document.

Points	Max Points	Content
10	10	Do the requirements clearly state the customers' needs?
5	5	Do the requirements avoid specifying a design (<i>note: customer-specified design elements are allowed; non-functional requirements may specify some design requirements</i>)?
		Completeness
22	25	Are the user stories written in sufficient detail to allow for design and planning?
5	5	Do the user stories have acceptance tests?
5	5	Do the user stories mention error conditions and required behavior?
12	20	Are the user stories complete? Do they cover all use cases?
11	15	Are the User Interface Requirements given with some detail? Are there some sketches, mockups?
		Clarity
5	5	Is the document carefully written, without typos and grammatical errors?
5	5	Is each part of the document in agreement with all other parts?
5	5	Are all items clear and not ambiguous? (Minor document readability issues should be handled off-line, not in the review, e.g. spelling, grammar, and organization).
